Pertinent Paragraphs

A local person came into our office some days ago and ordered his subscription to the Press discontinued. He had been on the books for a number of years, and naturally we were sorry to lose him. That is, we were until we learned his reason for stopping the paper. His reason was that he thought the paper is no better now than it was when he first came to town. More loyal subscribers can with little difficulty recall the days when the Press contained only two pages of "home print."—Like this week's paper, only the Press of other days carried two pages of what is known to the trade as "patent insides." For years the type was entirely hand set and the printing was done on a one page hand press which required in operation the services of two men and a boy. Today, the local paper is composed in its own shop on the most modern typesetting machine available—a machine far better than those found in most shops of like size anywhere. The actual printing is accomplished on a press that handles the customary four pages at one impression. News heretofore briefly treated, due to inadequate publishing facilities, is now receiving its proper amount of attention. Little in the way of strictly local news escapes print. Further, it is the intention of the management to shortly "go over" from a six to a seven column sheet. We believe the Press is getting better all the time, and we are always striving to make it better. Many people have told us that it is better—and we believe them.

Like every other local business the Press suffers from "toonear-sanoiseitis." Some people think their local paper should compete with the dailies. The more astute readily see why their home town paper cannot be anything else than what it is—and that's fair enough, isn't it—for \$1.50 per year.

Campbell people want to vote on whether or not the community shall support a police protection district by taxation, according to a counter-petition presented to the county commissioners Monday. A reasonable desire, in our opinion. Prevailing harmony at Monday night's meeting of the Chamber of Commerce, at which were present leaders of both factions in the police district controversy, indicates that the goal of publicly paid police officers may eventually be reached with few casualties. At

LOCAL CARRIER PRESENT AT "R. F. D." CONVENTION

Rural Carrier Dan Yeager motored to Santa Maria last week as the guest of Carrier Philbrick of Morgan Hill, arriving at their destination at noon, July 3. The afternoon was spent at various caucuses in connection with the rural carriers' convention. July 4 the convention opened a morning session at 9:30 in the beautiful high school assembly hall. The ladies auxiliary also held their preliminary session the same morning. At this meeting committees were appointed and visitors introduced. Carrier Yeager was appointed chairman of the auditing committee. Hal Philbrick of Morgan Hill was appointed on the committee on constitution and by-laws.

At 2 o'clock in the afternoon the carriers were taken by auto caravan on a tour of inspection to the Franklin seed farms near Guadalupe. Thence to Guadalupe and back through Santa Maria to the John Allen Hancock test farm where his chicken plant is capable of housing and handling 32,000 chickens was inspected. The carriers were then taken through the extensive barns, milking sheds where separators skim the milk which is then piped to the chicken ranch.

At the ranch the visiting carriers were told of John Allen Hancock and his various holdings in the valley, consisting of a large ranch, private railroad, oil fields, packing plants, etc., and on the same evening were guests at his private theater run in connection with a radio broadcasting station.

At 6 o'clock p. m. the carriers were banqueted at the Methodist church by the Santa Maria Chamber of Commerce.

On July 5 the convention opened at 9:30. Resolutions were adopted, to be sent to the national conclave at Savannah, Ga.

The constitution was amended, officers elected for the ensuing year, and Richmond chosen as the next state convention city.

Carrier Yeager was honored by the delegation to the national convention to be held at Savannah Aug. 21 to 24, inclusive.

one of the recent meetings of the supervisors one of them was heard to remark: "Why don't those people out there incorporate and settle their own problems locally." It was probably the most sensible utterance in the entire play of words involving the proposed police district. In view of the fact that police district taxes, added to those already in effect, will bring local taxes to an amount paid by many small, incorporated towns, the reluctance on the part of some voters to aid in incorporation is almost beyond comprehension. Let's get progressive.

That's all.

IMPORTANT NOTICE

The "slimness" of The Press this week is due to the desire of the management to make a radical change in the date of publication. Hereafter The Press will appear Tuesday evening in the city and Wednesday on the rural routes. The change entails a revision of schedule that made necessary the reduced size of the current issue.

The management at this time wishes to call attention to the fact that copy of any kind intended for publication in the current issue must be in this office not later than Tuesday noon.

Uniform in quality day after day, always oven fresh, always superior in taste, always firm, moist and full-flavored.

As ever ywomankind knows, bread making is an art demanding the most exacting care in preparation, mixing, raising and baking—that is why our bread is baked under the most rigid inspection.

It costs no more than ordinary bread. Why not try it today?

Who makes the best tires today?

ALL facts now unmistakably point to one make of tire as outstandingly the best. We refer to Goodyear.

Clever advertising long ago ceased to sell tires. Car owners have had too much experience to be led by "claims." Most tires are bought today on the basis of their proved performance.

This explains why MILLIONS MORE people ride on Goodyear Tires. Producing millions more tires than any other company, Goodyear is able to give you a very much better quality and yet charge no more.

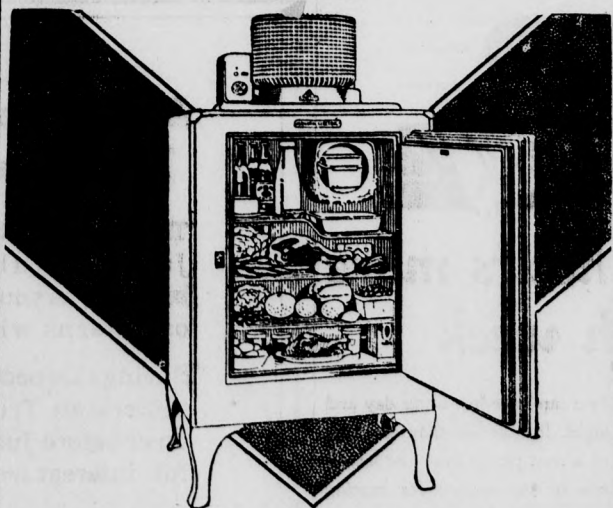

When urged to accept another tire as "equal to" or "better than" a Goodyear, PLEASE REMEMBER THE FACTS. Don't be "talked out of" the World's Greatest Tires.
